LOOKBOOK 2018

## Little Treasures

This collection takes its inspirations from antique Italian murals with its romantic nature scenes. Golden vines and leafy motives remind you of secret gardens and glass greenhouses full of flowers and flying birds. This collection wants to bring 15th-16th century feminine beauty aesthetic to a modern day woman. Boldness of some pieces, heavy pearls and rich golden tones add a renaissance flavour without being too obvious.

The LITTLE TREASURES COLLECTION is all about tradition and versatility. You can style our beautiful designs in so many ways, some pieces have double function. Material and finishing choices are made to create truly romantic and vintage inspired yet edgy collection. Colour palette: Rich golden tones, antique silver, delicate touches of blush, dreamy blue and black.
